**INSTRUCTIONS – DEP FORM 62-621.300(6)
NPDES STORMWATER NOTICE OF TERMINATION (NOT)**

Who May File a NOT:

Permittees who presently are covered under the Generic Permit for Stormwater Discharge from Construction Activities that Disturb Five or More Acres of Land or Generic Permit for Stormwater Discharge from Large and Small Construction Activities provided in Rule 62-621.300(4), F.A.C., the Multi-Sector Generic Permit for Stormwater Discharge Associated with Industrial Activity provided in Rule 62-621.300(5), F.A.C., or the conditional exclusion for “no exposure” of industrial activities and materials to stormwater provided in Rule 62-620.100(2)(o), F.A.C. may submit a Notice of Termination (NOT) when their facility or project no longer has any stormwater discharges associated with industrial activity as defined in Rule 62-620.200(46) F.A.C.; stormwater discharge associated with construction activity as defined in DEP Document 62-621.300(4)(a); no longer meets the condition of “no exposure” defined in Rule 62-620.100(2)(o), F.A.C.; or when they are no longer the operator of the facility or project.

For construction activities, elimination of all stormwater discharges associated with industrial activity occurs when disturbed soils at the construction site have been finally stabilized and temporary erosion and sediment control measures have been removed or will be removed at an appropriate time, and all stormwater discharges associated with construction activity from the construction site that are authorized under the generic permit have been eliminated. Final stabilization means that all soil-disturbing activities at the site have been completed and that a uniform (e.g., evenly distributed, without large bare areas) perennial vegetative cover with a density of at least 70% for all unpaved areas and areas not covered by permanent structures has been established, or equivalent permanent stabilization measures (e.g., geotextiles) have been employed.

Where to File NOT:

One copy of the completed NOT shall be submitted to the following address:

Contractors/subcontractors claiming coverage under a permittee’s NOI must assure proper permit coverage for the duration of their regulated activity.
